**MEMORANDUM**

Memo to: Mr. Gregg Hembree, Solicitor  
From: Lisa Hammersley, Public Information Officer  
Re: James Brian Spencer (aka Robert B. Holt) FOIA Requests  
Date: May 3, 2001

Please find attached, a copy of two FOIA requests. In the packet you will find all the information from the Police Department and Sheriff's department concerning his request. I did not receive information from Judge Dennis Phipps. On top of the requested information, he requested on the phone on May 2, 2001 a copy of the evidence log to see who looked and took out any evidence concerning this case and he was mainly interested in the video that was in Officer Chuck McClendon's car.

E911 does not have any original or any tapes on file concerning this incident as of May 2 2001. The Sheriff and Police Departments both said that SLED is in possession of the video and they do not have any copies of any videotapes in their departments. Also, please find enclosed a letter from Charles B. Johnson, Summary Court Officer, which was written to James Brian Spencer on May 2, 2001.

I've also enclosed a letter from asking for him to remit payment of \$49.90 for his information that I have not mailed. I have informed him today that all the information I have collected has been sent to you for review and that you will respond to his FOIA request.

He asked that all information be sent to a different address as noted in pen on his April 18, 2001 request.

Please review the enclosed FOIA request and attached information and send him what you deem appropriate.
